Cairo,Egypt

SUMMARY

Proactive Software Engineering student with a strong technical foundation in full-stack mobile and web development. Experienced in building cross-platform applications with **Flutter** and robust backend using **Spring Boot** and **FastAPI**. Unique background in **Android Custom ROM development**, demonstrating deep understanding of Linux-based systems and hardware-software integration. Adept at managing relational databases with **SQL** and committed to writing clean, scalable code.

EDUCATION

Bachelor degree of Software Engineering, Sadat Academy for Management Sciences 2023 – 2027

GPA 3.74

PROJECTS

DecadeDash

A 1950s–2020s themed trivia quiz app; applied configurable difficulty/timer, tap-to-answer cards with instant feedback, tracked hints, and a score + per-question review results screen.

Detro

A Cairo Metro route planner; applied same station exclusion across both pickers, a fewest stops/nearest-first toggle, fuzzy station search, and a Trip summary.

RECO

A full-stack intelligent e-commerce platform and custom recommendation engine built with Spring Boot, PostgreSQL, and JavaScript.

Eco-Dispose

A full-stack electronic waste management and recycling application built with Vue.js, SQLAlchemy, and Flask.

Reservita

A full-stack event ticketing platform with intelligent seat selection, QR code verification, and real-time analytics.Built with JS, FastAPI, and SQLAlchemy

Student-Depression

Analyzing Student data to extract insights, Applied data preprocessing, Visualization techniques, and model training.

TECHNICAL SKILLS

Flutter: basic state management, API integration, Basic Firebase

BackEnd: Flask, FastAPI, Spring Boot

Database: PostgreSQL, SQLite, SQLAlchemy

DataScience: NumPy, Pandas, matplotlib, Seaborn

Programming: C, C++,Python,Java

FrontEnd: Basics HTML5, CSS3

CERTIFICATES

AWS Academy Cloud Foundation

Gained foundational knowledge of cloud computing concepts and AWS core service.

AWS Academy Software Architecture

Learned principles of designing scalable and reliable cloud architectures.

Dart

Learned core Dart programming concepts, object-oriented principles, and asynchronous features.
